NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

A. BASIS OF PRESENTATION:

The unaudited Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles and with instructions to Form 10-Q and Article 10 of Regulation S-X. The accompanying unaudited Consolidated Financial Statements reflect all adjustments which are, in the opinion of management, necessary to a fair presentation of the results for the interim periods presented. All such adjustments are of a normal recurring nature.

A summary of significant accounting policies followed by the Company is detailed in the Annual Report to Shareholders for Fiscal 1997. The Company follows these policies in preparation of the interim Financial Statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that the Consolidated Financial Statements be read in conjunction with the Company's Consolidated Financial Statements and Notes thereto for the fiscal year ended June 30, 1997 included in the Company's Annual Report to Shareholders for Fiscal 1997.

In June 1997, the Financial Accounting Standards Board issued SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information," which will be effective for the Company beginning July 1, 1998. SFAS No. 131 redefines how operating segments are determined and requires disclosure of certain financial and descriptive information about a company's operating segments. The Company believes that this statement will not have a material impact on results reported in its financial statements.

In June 1997, the Financial Accounting Standards Board issued SFAS No. 130, "Reporting Comprehensive Income," which will be effective for the Company beginning July 1, 1998. SFAS No. 130 requires the disclosure of comprehensive income and its components in the Company's financial statements. The Company anticipates the effect of SFAS No. 130 will result in disclosure of unearned compensation on stock options and foreign currency translation adjustments on the face of the comprehensive income statement.

B. STOCK SPLIT:

On October 23, 1997, the Company declared a two-for-one stock split to be effected in the form of a 100% stock dividend to shareholders of record on November 10, 1997. The payment date for the stock split was November 17, 1997. All earnings per share and share amounts included in these financial statements have been restated to reflect the stock split.

C. EARNINGS PER SHARE:

Shares used in the earnings per share computations are as follows:

Fully diluted earnings per share are not separately reported since the effect of dilution is less than three percent.

Effective for the quarter ended December 31, 1997, the Company will adopt Statement of Financial Accounting Standards No. 128 (SFAS 128), "Earnings Per Share". All prior period earnings per share amounts will be restated to conform to the new standard. Earnings per share for the quarter ended September 30, 1997 computed under SFAS 128 would have resulted in basic and diluted earnings per share of \$.17.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations Quarter Ended September 30, 1997
vs. Quarter Ended September 30, 1996

Techne Corporation has two operating subsidiaries: Research and Diagnostic Systems, Inc. (R&D Systems) located in Minneapolis, Minnesota and R&D Systems Europe Ltd. (R&D Europe) located in Abingdon, England. R&D Systems has two divisions: Biotechnology and Hematology. The Biotechnology Division manufactures purified cytokines (proteins), antibodies and assay kits which are sold primarily to biomedical researchers and clinical research laboratories. The Hematology Division develops and manufactures whole blood hematology controls and calibrators which are sold to hospital and clinical laboratories to check the performance of their hematology instruments to assure the accuracy of hematology test results. R&D Europe sells R&D Systems' biotechnology products in Europe, both directly and through a sales subsidiary in Germany. The Company has a foreign sales corporation, Techne Export Inc.

Net Sales

Net sales for the quarter ended September 30, 1997 were \$15,537,143, an increase of \$1,510,165 (11%) from the quarter ended September 30, 1996. R&D Systems sales increased \$1,776,287 (18%) and R&D Europe sales decreased \$266,122 (7%) from the quarter ended September 30, 1996, respectively. The decrease in R&D Europe sales was not unexpected due to the discontinuance of the molecular biology product line. R&D Europe sales of continuing product lines increased 17% from the first quarter of last year.

The increase in consolidated sales for the quarter was due, in part, to increased sales of R&D Systems' cytokines and antibodies. Sales of cytokines and antibodies by R&D Systems and R&D Europe for the quarter ended September 30, 1997 were \$5,477,828 compared to \$4,046,445 for the quarter ended September 30, 1996, an increase of \$1,431,383.

In addition, sales of hematology products increased \$505,335 for the quarter ended September 30, 1997 due largely to the addition of two new OEM customer during the quarter, plus increased sales to a current OEM customer and increased retail and survey sales.

Gross Margins

Gross margins, as a percentage of sales, increased from the prior year. Margins for the first quarter of fiscal 1998 were 70.7% compared to 65.9% for the same quarter in fiscal 1997.

The increase for the quarter was due to changes in product mix to higher-margin products and the conclusion of royalty payments to Amgen Inc. in August 1996. Gross margins for R&D Europe, Hematology Division and Biotechnology Division all increased for the quarter. R&D Europe gross margins increased from 51.7% to 53.0%; Hematology Division gross margins increased from 40.1% to 48.5%; and Biotechnology Division gross margins increased from 68.8% to 73.1%.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$686,169 (21%) from the first quarter of fiscal 1997 to the first quarter of fiscal 1998. The majority of the increase was due to additional occupancy and personnel costs at R&D Systems, plus increased advertising and promotion costs by both R&D Systems and R&D Europe. These increased costs were partially offset by decreased personnel costs at R&D Europe as a result of the restructuring in the third quarter of fiscal 1997.

Research and Development Expenses

Research and development expenses decreased \$416,996 (14%) for the quarter ended September 30, 1997. R&D Europe research and development expenses decreased \$631,662 for the quarter as a result of a decrease in payments under the Joint Biological Research Agreement with British Bio-technology Group, plc. of \$314,146 and a decrease in personnel as a result of the restructuring and the transfer of the majority of research and development activities to R&D Systems. R&D Systems' research and development expenses

increased \$214,666 for the quarter ended September 30, 1997. The increase related to products currently under development, many of which have been or will be released in fiscal 1998. Products currently under development include both biotechnology and hematology products.

Net Earnings

Earnings before income taxes increased \$1,603,113 from \$3,120,269 in the first quarter of fiscal 1997 to \$4,723,382 in the first quarter of fiscal 1998. The increase in earnings before income taxes was due mainly to an increase in Biotechnology Division and Hematology Division earnings of \$819,022 and \$394,189, respectively, as a result of increased sales and gross margins, and an increase in R&D Europe earnings of \$474,292 as a result of the decrease in research and development expenses.

Income taxes for the quarters ended September 30, 1997 and 1996 were provided at a rate of approximately 31% and 30% of consolidated pretax earnings, respectively. U.S. federal taxes have been reduced by the credit for research and development expenditures and the benefit of the foreign sales corporation. Foreign income taxes have been provided at rates which approximate the tax rates in the United Kingdom and Germany.

Liquidity and Capital Resources

At September 30, 1997, cash and cash equivalents and short-term investments were \$28,733,964 compared to \$24,752,257 at June 30, 1997. The Company has been accumulating cash and short-term investments for future expansion purposes. The Company believes it can meet its future cash, working capital and capital addition requirements through currently available funds, cash generated from operations and maturities of short-term investments. The Company has an unsecured line of credit of \$750,000. The interest rate on the line of credit is at prime. There were no borrowings on the line in the prior or current fiscal years.

Cash Flows From Operating Activities

The Company generated cash of \$5,303,124 from operating activities in the first three months of fiscal 1998 compared to \$2,592,426 for the first three months of fiscal 1997. The increase was mainly the result of increased net earnings and increased current liabilities.

Cash Flows From Investing Activities

During the three months ended September 30, 1997 and 1996, the Company increased short-term investments \$3,514,425 and \$480,000, respectively. The Company's investment policy is to place excess cash in short-term tax-exempt bonds. The objective of this policy is to obtain the highest possible return with the lowest risk, while keeping the funds accessible.

Capital additions were \$1,030,222 for the first three months of fiscal 1998, compared to \$2,154,141 for the first three months of fiscal 1997. Included in the fiscal 1998 and 1997 additions were \$721,000 and \$1,783,000 for leasehold improvements related to expansion and remodeling of facilities by R&D Systems. The remaining additions in fiscal 1998 and 1997 were for laboratory and computer equipment. Total expenditures for capital additions planned for the remainder of fiscal 1998 are expected to cost approximately \$2 million and are expected to be financed through currently available funds and cash generated from operating activities.

Cash Flows From Financing Activities

Cash of \$5,288 and \$14,938 was received during the three months ended September 30, 1997 and 1996, respectively, for the exercise of options for 1,094 and 2,000 shares of common stock. During the first three months of fiscal 1998, options for 24,506 shares of common stock were exercised by the surrender of 7,624 shares of the Company's common stock with a fair market value of \$126,194.

During the first three months of fiscal 1998 and 1997, the Company purchased and retired 20,000 and 117,600 shares, respectively, of Company common stock at market values of \$280,000 and \$1,543,443. In May 1995, the Company announced a plan to purchase and retire up to \$5,000,000 of its common stock. Through November 1, 1997, 437,000 shares have been purchased at a market value of \$4,812,164. Subject to market conditions and share price, the Company has extended its stock repurchase program and plans to purchase and retire up to an additional \$5,000,000 of common stock.

During the first three months of fiscal 1998, the Company granted stock options with a fair value of \$200,500 to a non-employee for services rendered to the Company.

The Company has never paid cash dividends and has no plans to do so in fiscal 1998.
