NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
TECHNE Corporation and Subsidiaries
(unaudited)

A. Basis of presentation:

The interim unaudited condensed consolidated financial statements of Techne Corporation and Subsidiaries (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America and with instructions to Form 10-Q and Article 10 of Regulation S-X. The accompanying interim unaudited condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented. All such adjustments are of a normal recurring nature.

A summary of significant accounting policies followed by the Company is detailed in the Company's Annual Report on Form 10-K for fiscal 2011. The Company follows these policies in preparation of the interim unaudited condensed consolidated financial statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These interim unaudited condensed consolidated financial statements should be read in conjunction with the Company's Consolidated Financial Statements and Notes thereto for the fiscal year ended June 30, 2011, included in the Company's Annual Report on Form 10-K for fiscal 2011.

Certain reclassifications have been made to prior years' Condensed Consolidated Financial Statements to conform to the current year presentation. The Company reclassified prior years' amortization expense as appropriate based upon the nature of the related intangible asset to cost of sales or selling, general and administrative expense. These reclassifications had no impact on net earnings or shareholders' equity as previously reported.

B. Available-for-sale investments:

The Company's available-for-sale securities of \$203 million at September 30, 2011 are carried at fair value and are valued using quoted market prices in active markets (Level 1 input) for identical assets and liabilities.

C. Inventories:

Inventories consist of (in thousands):

	<u>September 30,</u> <u>2011</u>	<u>June 30,</u> <u>2011</u>
Raw materials	\$ 5,455	\$ 5,644
Finished goods	<u>36,661</u>	<u>39,262</u>
	<u>\$ 42,116</u>	<u>\$44,906</u>

D. Property and equipment:

Property and equipment consist of (in thousands):

	<u>September 30,</u> <u>2011</u>	<u>June 30,</u> <u>2011</u>
Cost:		
Land	\$ 7,464	\$ 7,497
Buildings and improvements	120,366	119,833
Laboratory equipment	30,269	30,315

	163,605	163,052
Accumulated depreciation and amortization	<u>69,253</u>	<u>67,654</u>
	<u>\$ 94,352</u>	<u>\$ 95,398</u>

Table of Contents

E. Intangible assets and goodwill:

Intangible assets consist of (in thousands):

	<u>September 30,</u> <u>2011</u>	<u>June 30,</u> <u>2011</u>
Developed technology	\$ 29,230	\$29,943
Trade names	17,820	18,021
Customer relationships	8,688	8,781
Non-compete agreement	400	400
	<u>56,138</u>	<u>57,145</u>
Accumulated amortization	<u>6,108</u>	<u>4,863</u>
	<u>\$ 50,030</u>	<u>\$52,282</u>

The change in the carrying amount of net intangible assets for the quarter ended September 30, 2011 resulted from amortization expense and currency translation. Amortization expense related to technologies included in cost of sales was \$764,000 and \$109,000 for the quarters ended September 30, 2011 and 2010, respectively. Amortization expense related to trade names, customer relationships, and the non-compete agreement included in selling, general and administrative expense was \$521,000 and \$61,000 for the quarters ended September 30, 2011 and 2010, respectively. The change in the carrying amount of goodwill for the quarter ended September 30, 2011 resulted from currency translation.

F. Other assets

Included in "Other assets" at September 30, 2011 is a loan receivable from ChemoCentryx, Inc. (CCX). In September 2011, the Company entered into a \$10 million loan agreement with CCX, one of its equity investees. The loan bears interest at 5% with interest due annually until maturity on September 30, 2021. The loan agreement contains a number of conversion features contingent upon CCX obtaining future debt or equity financing. In addition, the agreement includes a \$5 million commitment by the Company to participate in a private placement in the event of a successful public offering of CCX shares.

G. Share-based compensation:

Option activity under the Company's stock option plans during the quarter ended September 30, 2011 was as follows:

	<i>Shares</i> <i>(in</i> <i>thousands)</i>	<i>Weighted</i> <i>Average</i> <i>Exercise</i> <i>Price</i>	<i>Weighted</i> <i>Average</i> <i>Contractual</i> <i>Life (Yrs.)</i>	<i>Aggregate</i> <i>Intrinsic</i> <i>Value</i>
Outstanding at June 30, 2011	499	\$64.15		
Granted	25	\$76.15		
Exercised	<u>(1)</u>	\$39.93		
Outstanding at September 30, 2011	<u>523</u>	\$64.78	6.0	\$2.9 million
Exercisable at September 30, 2011	<u>314</u>	\$59.16	5.8	\$2.8 million

Table of Contents

The fair value of options granted under the Company's stock option plans was estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions used:

	<i>Quarter Ended September 30,</i>	
	<i>2011</i>	<i>2010</i>
Dividend yield	1.4%	1.8%
Expected annualized volatility	23%	23%
Risk free interest rate	1.4%	1.4%
Expected life	4 years	4 years

The dividend yield is based on the Company's historical annual cash dividend divided by the market value of the Company's Common Stock. The expected annualized volatility is based on the Company's historical stock price over a period equivalent to the expected life of the option granted. The risk-free interest rate is based on U.S. Treasury constant maturity interest rates with a term consistent with the expected life of the options granted. Separate groups of employees that have similar historical exercise behavior with regard to option exercise timing and forfeiture rates are considered separately in determining option fair value.

The weighted average per share fair value of options granted during the quarters ended September 30, 2011 and 2010 was \$13.66 and \$9.67, respectively. The total intrinsic value of options exercised during the quarters ended September 30, 2011 and 2010 was \$34,000 and \$317,000, respectively. The total fair value of options vested during the quarters ended September 30, 2011 and 2010 was \$71,000 and \$49,000, respectively.

Stock-based compensation cost of \$290,000 and \$136,000 was included in selling, general and administrative expense for the quarters ended September 30, 2011 and 2010, respectively. Compensation cost is recognized using a straight-line method over the vesting period and is net of estimated forfeitures. As of September 30, 2011, there was \$2.5 million of total unrecognized compensation cost related to non-vested stock options, which will be expensed in fiscal 2012 through 2015. The weighted average period over which the compensation cost is expected to be recognized is 1.5 years.

H. Earnings per share:

Shares used in the earnings per share computations are as follows (in thousands):

	<i>Quarter Ended September 30,</i>	
	<i>2011</i>	<i>2010</i>
Weighted average common shares outstanding-basic	37,095	37,040
Dilutive effect of stock options	75	67
Weighted average common shares outstanding-diluted	37,170	37,107

The dilutive effect of stock options in the above table excludes all options for which the aggregate exercise proceeds exceeded the average market price for the period. The number of potentially dilutive option shares excluded from the calculation was 170,000 and 105,000 for the quarters ended September 30, 2011 and 2010, respectively.

K. Recent accounting pronouncements:

In June 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-05 *Comprehensive Income* under an amendment to Topic 220. Under this update, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU No. 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The update does not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. The Company must comply with ASU No. 2011-05 for the quarter ended September 30, 2012. The Company does not believe this update will have a material impact on the Company's consolidated financial statements.

[Table of Contents](#)

In September 2011, the FASB issued ASU No. 2011-08 *Intangibles – Goodwill and Other* under an amendment to Topic 350, which permits an entity to make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If an entity concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it would not be required to perform the two-step impairment test for that reporting unit. The update is effective for the Company for annual and interim goodwill impairment tests for fiscal 2013. Early adoption is permitted. The Company does not believe this update will have a material impact on the Company's consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

TECHNE Corporation and subsidiaries (the Company) are engaged in the development, manufacture and sale of biotechnology products and hematology calibrators and controls. These activities are conducted domestically through its wholly-owned subsidiaries, Research and Diagnostic Systems, Inc. (R&D Systems), Boston Biochem, Inc. (Boston Biochem), Tocris Cookson, Inc. (Tocris US), and BiosPacific, Inc. (BiosPacific). The Company's European biotechnology operations are conducted through its wholly-owned U.K. subsidiaries, R&D Systems Europe Ltd. (R&D Europe) and Tocris Holdings Limited (Tocris UK). R&D Europe has a sales subsidiary, R&D Systems GmbH, in Germany and a sales office in France. The Company distributes its biotechnology products in China through its wholly-owned subsidiary, R&D Systems China Co., Ltd. (R&D China). R&D China has a sales subsidiary, R&D Systems Hong Kong Ltd., in Hong Kong.

The Company has two reportable segments based on the nature of its products: biotechnology and hematology. R&D Systems' Biotechnology Division, R&D Europe, Tocris, R&D China, BiosPacific and Boston Biochem operating segments are included in the biotechnology reporting segment. The Company's biotechnology reporting segment develops, manufactures and sells biotechnology research and diagnostic products world-wide. The Company's hematology reporting segment, which consists of R&D Systems' Hematology Division, develops and manufactures hematology controls and calibrators for sale world-wide.

RESULTS OF OPERATIONS

Consolidated net sales increased 14.2% and consolidated net earnings increased 4.4%, respectively, for the quarter ended September 30, 2011 compared to the quarter ended September 30, 2010. Consolidated net sales for the quarter ended September 30, 2011 included \$5.6 million of revenues from the Boston Biochem and Tocris businesses that were acquired during the fourth quarter of fiscal 2011. Consolidated net sales and net earnings for the quarter ended September 30, 2011 were positively affected by changes in exchange rates from the prior year. The favorable impact of the change from the prior year in exchange rates used to convert sales and net earnings in foreign currencies (primarily British pounds sterling, euros and Chinese yuan) into U.S. dollars was \$1.9 million and \$353,000, respectively, for the quarter ended September 30, 2011.

Net sales

Consolidated net sales for the quarter ended September 30, 2011 were \$77.6 million, an increase of \$9.7 million (14.2%) from the quarter ended September 30, 2010. Included in consolidated net sales for the quarter ended September 30, 2011 was \$5.6 million of revenues from products of companies acquired during the fourth quarter of fiscal 2011. Excluding these revenues from acquisitions and the effect of changes in foreign currency exchange rates, consolidated net sales increased 3.2% for the quarter ended September 30, 2011 from the comparable prior-year period. Included in consolidated net sales for the quarter ended September 30, 2011 was \$235,000 of sales of new biotechnology products that had their first sale in fiscal 2012.

[Table of Contents](#)

Biotechnology segment net sales increased \$9.3 million (14.7%) for the quarter ended September 30, 2011 compared to the same prior-year period. Excluding revenues from acquisitions and changes in exchange rates from the prior year, biotechnology segment sales increased \$1.8 million (2.8%). This increase was mainly the result of increased sales volume. For the quarter ended September 30, 2011, Biotechnology net sales to U.S. industrial pharmaceutical and biotechnology customers increased 9.3% and Biotechnology net sales to U.S. academic customers decreased 2.5% compared to the comparable prior-year periods. Sales to Pacific Rim distributors remained unchanged from the comparable prior-year quarter. Biotechnology segment net sales by R&D Europe and R&D China increased 11.6% (decrease of 0.7% in constant currency) and 24.0% (14.1% in constant currency), respectively for the quarter ended September 30, 2011 from the quarter ended September 30, 2010.

Hematology segment net sales increased \$389,000 (7.9%) for the quarter ended September 30, 2011 compared to the same prior-year period as a result of increased sales volume.

Gross margins

Gross margins, as a percentage of net sales, were as follows:

	<i>Quarter Ended September 30,</i>	
	<i>2011</i>	<i>2010</i>
Biotechnology	77.2%	79.6%
Hematology	48.2%	48.8%
Consolidated	75.2%	77.4%

Consolidated gross margins, as a percentage of consolidated net sales, were 75.2% and 77.4% for the quarters ended September 30, 2011 and 2010, respectively. Consolidated and biotechnology segment gross margin percentages for the quarter ended September 30, 2011 were negatively impacted as a result of purchase accounting related to inventory and intangible asset from the acquisitions made in the fourth quarter of fiscal 2011. Under purchase accounting, inventory acquired is valued at fair value less expected selling and marketing costs, resulting in reduced margins in future periods as the inventory is sold. For the quarter ended September 30, 2011, the consolidated margin was reduced \$2.1 million (2.8%) as a result of purchase accounting related to acquired inventory sold in the quarter. In addition, consolidated gross margins for the quarters ended September 30, 2011 and 2010 were reduced \$764,000 (1.0%) and \$109,000 (0.2%), respectively, as a result of amortization of acquired technology. The hematology segment gross margin percentage for the quarter ended September 30, 2011 was 48.2% compared to 48.8% for the quarter ended September 30, 2010, as a result of changes in product mix.

Selling, general and administrative expenses

Selling, general and administrative expenses were composed of the following (in thousands):

	<i>Quarter Ended September 30,</i>	
	<i>2011</i>	<i>2010</i>
Biotechnology	\$ 9,470	\$6,486
Hematology	480	328
Unallocated corporate expenses	823	799
	<u>\$10,773</u>	<u>\$7,613</u>

Selling, general and administrative expenses for the quarter ended September 30, 2011 increased \$3.2 million (41.5%) from the same prior-year period. The increase in selling, general and administrative expense for the quarter ended September 30, 2011 resulted primarily from expenses of the companies acquired in late fiscal 2011 of \$1.6 million, an increase in customer relationships and trade name amortization as a result of the acquisitions of \$460,000, and increased profit sharing expense of \$885,000.

Research and development expenses

Research and development expenses were composed of the following (in thousands):

	Quarter Ended September 30,	
	2011	2010
Biotechnology	\$6,469	\$6,421
Hematology	198	198
	<u>\$6,667</u>	<u>\$6,619</u>

Research and development expenses for the quarter ended September 30, 2011 increased \$48,000 from the same prior- year period. The increase was mainly due to increases in personnel and supply costs associated with the continuous development and release of new high-quality biotechnology products.

Other non-operating expense, net

Other non-operating expense, net, consists mainly of foreign currency transaction gains and losses, rental income, building expenses related to rental property, and the Company's share of losses by equity method investees.

	Quarter Ended September 30,	
	2011	2010
Foreign currency (losses) gains	\$ (524)	\$ 505
Rental income	134	123
Building expenses related to rental property	(587)	(556)
Losses by equity method investees	(198)	(329)
	<u>\$(1,175)</u>	<u>\$(257)</u>

Income taxes

Income taxes for the quarter ended September 30, 2011 were provided at a rate of 32.0% of consolidated earnings before income taxes compared to 32.3% for the same prior-year period. The improvement in the tax rate for the quarter ended September 30, 2011 was a result of the renewal of the U.S. research and development credit in the second quarter of fiscal 2011. Foreign income taxes have been provided at rates that approximate the tax rates in the countries in which R&D Europe, Tocris and R&D China operate. The Company expects its fiscal 2012 effective income tax rate to range from approximately 31.0% to 33.0%.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2011, cash and cash equivalents and available-for-sale investments were \$282 million compared to \$273 million at June 30, 2011. The Company believes it can meet its cash and working capital requirements, capital addition needs and share repurchase, cash dividend, investment and acquisition strategies for the foreseeable future through currently available funds, cash generated from operations and maturities or sales of available-for-sale investments. The Company has an unsecured line of credit of \$750,000. The interest rate on the line of credit is at prime. There were no borrowings on the line in the prior or current fiscal year.

Cash flows from operating activities

The Company generated cash of \$34.4 million from operating activities in the first quarter of fiscal 2012 compared to \$30.7 million in the first quarter of fiscal 2011. The increase from the prior year was primarily due to increased net earnings adjusted for non-cash depreciation expense, amortization expense, and costs recognized on the sale of acquired inventory.

[Table of Contents](#)

Cash flows from investing activities

During the quarter ended September 30, 2011, the Company purchased \$34.3 million and had sales or maturities of \$35.0 million of available-for-sale investments. During the quarter ended September 30, 2010, the Company purchased \$42.9 million and had sales or maturities of \$41.6 million of available-for-sale investments. The Company's investment policy is to place excess cash in municipal and corporate bonds and other investments with maturities of less than three years. The objective of this policy is to obtain the highest possible return while minimizing risk and keeping the funds accessible.

Capital expenditures for fixed assets for the first quarter of fiscal 2012 and 2011 were \$1.1 million for both periods. Included in capital expenditures for the first quarter of fiscal 2012 was \$663,000 related to remodeling of laboratory space at the Company's Minneapolis facility. The remaining capital additions were mainly for laboratory and computer equipment. Capital expenditures in the remainder of fiscal 2012 are expected to be approximately \$6.4 million and are expected to be financed through currently available funds and cash generated from operating activities.

During the quarter ended September 30, 2011, the Company entered into a \$10 million loan agreement with CCX, one of its equity investees. The loan receivable is included in "Other assets" at September 30, 2011.

Cash flows from financing activities

During the first quarters of fiscal 2012 and 2011, the Company paid cash dividends of \$10.0 million and \$9.6 million, respectively, to all common shareholders. On October 27, 2011, the Company announced the payment of a \$0.28 per share cash dividend. The dividend of approximately \$10.4 million will be payable November 21, 2011 to all common shareholders of record on November 7, 2011.

Cash of \$45,000 and \$867,000 was received during the quarters ended September 30, 2011 and 2010, respectively, from the exercise of stock options. The Company also recognized excess tax benefits from stock option exercises of \$7,000 and \$83,000 for the quarters ended September 30, 2011 and 2010, respectively.

During the first quarter of fiscal 2012 and 2011, the Company purchased 13,140 and 4,923 shares of common stock for its employee stock bonus plans at a cost of \$907,000 and \$294,000, respectively.

During the first quarter of fiscal 2012, the Company purchased and retired 149,860 shares of common stock at a market value of \$10.7 million. During the first quarter of fiscal 2011, the Company disbursed \$1.9 million for the settlement of common stock purchased and retired during the fourth quarter of fiscal 2010.

CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of business in the Company's contractual obligations during the quarter ended September 30, 2011.

CRITICAL ACCOUNTING POLICIES

The Company's significant accounting policies are discussed in the Company's Annual Report on Form 10-K for fiscal 2011. The application of certain of these policies requires judgments and estimates that can affect the results of operations and financial position of the Company. Judgments and estimates are used for, but not limited to, valuation of available-for-sale investments, inventory valuation and allowances, valuation of intangible assets and goodwill and valuation of investments in unconsolidated entities. There have been no significant changes in estimates in fiscal 2012 that would require disclosure. There have been no changes to the Company's policies in fiscal 2012.

FORWARD LOOKING INFORMATION AND CAUTIONARY STATEMENTS

This quarterly report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include those regarding the Company's expectations as to the effect of changes to accounting policies, effective tax rate, pending litigation, the amount of capital expenditures for the remainder of the fiscal year and the sufficiency of currently available funds for meeting the Company's needs. These statements involve risks and uncertainties that may affect the actual results of operations. The following important factors, among others, have affected and, in the future, could affect the Company's actual results: the introduction and acceptance of new products, general economic conditions, increased competition, the reliance on internal manufacturing and related operations, the impact of currency exchange rate fluctuations, the integration of Boston Biochem and Tocris, the recruitment and retention of qualified personnel, the impact of governmental regulation, maintenance of intellectual property rights, credit risk and fluctuation in the market value of the Company's investment portfolio and the success of financing efforts by companies in which the Company has invested. For additional information concerning such factors, see the Company's Annual Report on Form 10-K for fiscal 2011 as filed with the Securities and Exchange Commission.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At September 30, 2011, the Company had a portfolio of fixed income securities, excluding those classified as cash and cash equivalents, of \$203 million. These securities, like all fixed income instruments, are subject to interest rate risk and will decline in value if market interest rates increase. As the Company's fixed income securities are classified as available-for-sale, no gains or losses are recognized by the Company in its consolidated statements of earnings due to changes in interest rates unless such securities are sold prior to maturity. The Company generally holds its fixed income securities until maturity and, historically, has not recorded any material gains or losses on any sale prior to maturity.

The Company operates internationally, and thus is subject to potentially adverse movements in foreign currency rate changes. For the quarter ended September 30, 2011, approximately 30% of consolidated net sales were made in foreign currencies, including 15% in euros, 7% in British pound sterling, 3% in Chinese yuan and the remaining 5% in other European currencies. As a result, the Company is exposed to market risk mainly from foreign exchange rate fluctuations of the euro, British pound sterling and the Chinese yuan as compared to the U.S. dollar as the financial position and operating results of the Company's foreign operations are translated into U.S. dollars for consolidation.

Month-end average exchange rates between the British pound sterling, euro and Chinese yuan and the U.S. dollar, which have not been weighted for actual sales volume in the applicable months in the periods, were as follows:

	<i>Quarter Ended</i>	
	<i>September 30,</i>	
	<i>2011</i>	<i>2010</i>
Euro	\$1.41	\$1.31
British pound sterling	1.61	1.56
Chinese yuan	.156	.148

Table of Contents

The Company's exposure to foreign exchange rate fluctuations also arises from trade receivables and intercompany payables denominated in one currency in the financial statements, but receivable or payable in another currency. At September 30, 2011, the Company had the following trade receivable and intercompany payables denominated in one currency but receivable or payable in another currency (in thousands):

	<i>Denominated Currency</i>	<i>U.S. Dollar Equivalent</i>
Accounts receivable in:		
Euros	£ 1,137	\$ 1,772
Other European currencies	£ 750	\$ 1,169
Intercompany payable in:		
Euros	£ 127	\$ 198
U.S. dollars	£ 1,945	\$ 3,032
U.S. dollars	yuan 4,110	\$ 642
British pound sterling	yuan 277	\$ 43

All of the above balances are revolving in nature and are not deemed to be long-term balances. The Company does not enter into foreign exchange forward contracts to reduce its exposure to foreign currency rate changes on forecasted intercompany foreign currency denominated balance sheet positions. Foreign currency transaction gains and losses are included in "Other non-operating expense" in the consolidated statement of earnings. The effect of translating net assets of foreign subsidiaries into U.S. dollars are recorded on the consolidated balance sheet as part of "Accumulated other comprehensive income."

The effects of a hypothetical simultaneous 10% appreciation in the U.S. dollar from September 30, 2011 levels against the euro, British pound sterling and Chinese yuan are as follows (in thousands):

Decrease in translation of 2012 earnings into U.S. dollars (annualized)	\$ 2,244
Decrease in translation of net assets of foreign subsidiaries	12,920
Additional transaction losses	367

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as amended (the Exchange Act)). Based on this evaluation, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective to ensure that material information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There was no change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In a previously disclosed lawsuit filed by Streck, Inc. (Streck), venued in the U.S. District Court for the District of Nebraska (the Nebraska Court), Streck alleged patent infringement involving certain patents issued to Streck relating to the addition of reticulocytes to hematology controls. Streck was seeking a royalty on sales of integrated hematology controls containing reticulocytes. The Company has reason to believe that R&D Systems, and not Streck, first invented the inventions claimed in these patents and several other patents issued to Streck. As a result, the Company requested, and in 2007 the U.S. Patent and Trademark Office (USPTO) declared, an interference to determine priority of invention between a patent application filed by R&D Systems and five Streck patents, including each of the patents involved in the lawsuit. On November 2, 2009, the interference board ordered that judgment for the Company and against Streck be entered; finding that R&D Systems was the first to invent the integrated hematology controls containing reticulocytes.

The judgment, if upheld by the Federal Circuit Court of Appeals, will constitute cancellation of all claims of the five Streck patents involving the addition of reticulocytes to hematology controls. Such cancellation may moot an earlier jury decision on October 28, 2009, at the conclusion of trial in the Nebraska Court, that the Company did not meet its burden of demonstrating by clear and convincing evidence that the Streck patents were invalid. The jury also found that a reasonable license royalty rate was 12.5%, and that R&D Systems did not willfully infringe, resulting in a judgment in favor of Streck in the amount of approximately \$170,000 including court-related costs. On September 30, 2010, the Nebraska Court upheld the jury verdict and, in a related action, reversed the ruling of the USPTO interference board. The Nebraska Court entered an injunction prohibiting the making and selling of the products that are the subject of the lawsuit, but stayed a portion of the injunction to allow the Company to sell inventory on-hand through December 20, 2010. In October 2010, the Company appealed the adverse decisions of the Nebraska Court to the Federal Circuit Court of Appeals. On October 20, 2011, the Federal Circuit issued an opinion upholding the District Court's interference-related finding of priority in favor of Streck, and indicated that its decision in the Nebraska infringement case appeal would follow. The Company does not believe the resolution of the above proceedings will have a material impact on the Company's consolidated financial statements.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in Part I, Item 1A, "Risk Factors," of the Company's Annual Report on Form 10-K for the year ended June 30, 2011.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth the repurchases of Company common stock for the quarter ended September 30, 2011:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
7/1/11-7/31/11	0	\$ 0	0	\$ 50.6 million
8/1/11-8/31/11	109,921	\$ 70.97	96,781	\$ 43.7 million
9/1/11-9/30/11	53,079	\$ 71.24	53,079	\$ 39.9 million

In April 2009, the Company authorized a plan for the repurchase and retirement of \$60 million of its common stock. The plan does not have an expiration date.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. (REMOVED AND RESERVED)

ITEM 5. OTHER INFORMATION

On July 1, 2011, the Company entered into an Amended and Restated Employment Agreement (the "Employment Agreement") with Marcel Veronneau, the Company's Vice President of Hematology Operations. The Employment Agreement has a four-year term and provides for an initial annualized base salary of \$200,000, bonuses pursuant to the Company's management incentive plan, employee benefits made available generally to all employees, and severance pay under certain circumstances. The severance payments would be triggered if Mr. Veronneau's employment with the Company was terminated in connection with a merger, sale, or other change in control of the Company.
