Amortization expense related to technologies included in cost of sales was \$753,000 and \$764,000, respectively, for the quarters ended September 30, 2012 and 2011. Amortization expense related to trade names, customer relationships, and the non-compete agreement included in selling, general and administrative expense was \$519,000 and \$521,000 for the quarters ended September 30, 2012 and 2011, respectively.

The change in the carrying amount of goodwill for the quarter ended September 30, 2012 resulted from currency translation.

F. Share-based compensation:

Option activity under the Company's stock option plans during the quarter ended September 30, 2012 was as follows:

	<i>Shares</i> <i>(in</i> <i>thousands)</i>	<i>Weighted</i> <i>Average</i> <i>Exercise</i> <i>Price</i>	<i>Weighted</i> <i>Average</i> <i>Contractual</i> <i>Life (Yrs.)</i>	<i>Aggregate</i> <i>Intrinsic</i> <i>Value</i>
Outstanding at June 30, 2012	575	\$65.78		
Granted	5	\$74.05		
Exercised	<u>(2)</u>	\$55.11		
Outstanding at September 30, 2012	<u>578</u>	\$65.90	5.5	\$4.1 million
Exercisable at September 30, 2012	<u>405</u>	\$62.84	5.5	\$3.9 million

The fair value of options granted under the Company's stock option plans was estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions used:

	<i>Quarter</i> <i>Ended</i> <i>September 30,</i>	
	<u>2012</u>	<u>2011</u>
Dividend yield	1.5%	1.4%
Expected annualized volatility	23%	23%
Risk free interest rate	0.5%	1.4%
Expected life	4 years	4 years

The dividend yield is based on the Company's historical annual cash dividend divided by the market value of the Company's Common Stock. The expected annualized volatility is based on the Company's historical stock price over a period equivalent to the expected life of the option granted. The risk-free interest rate is based on U.S. Treasury constant maturity interest rates with a term consistent with the expected life of the options granted. Separate groups of employees that have similar historical exercise behavior with regard to option exercise timing and forfeiture rates are considered separately in determining option fair value.

Table of Contents

The weighted average per share fair value of options granted during the quarters ended September 30, 2012 and 2011 was \$11.85 and \$13.66, respectively. The total intrinsic value of options exercised during the quarters ended September 30, 2012 and 2011 was \$40,000 and \$34,000, respectively. The total fair value of options vested during the quarters ended September 30, 2012 and 2011 was \$55,000 and \$71,000, respectively.

Stock-based compensation cost of \$303,000 and \$290,000 was included in selling, general and administrative expense for the quarters ended September 30, 2012 and 2011, respectively. Compensation cost is recognized using a straight-line method over the vesting period and is net of estimated forfeitures. As of September 30, 2012, there was \$1.9 million of total unrecognized compensation cost related to non-vested stock options. The weighted average period over which the compensation cost is expected to be recognized is 1.1 years.

G. Earnings per share:

Shares used in the earnings per share computations are as follows (in thousands):

Dilutive effect of stock options	67	75
Weighted average common shares outstanding-diluted	<u>36,895</u>	<u>37,170</u>

The dilutive effect of stock options in the above table excludes all options for which the aggregate exercise proceeds exceeded the average market price for the period. The number of potentially dilutive option shares excluded from the calculation was 199,000 and 170,000 for the quarters ended September 30, 2012 and 2011, respectively.

RESULTS OF OPERATIONS

Consolidated net sales and consolidated net earnings decreased 3.3% and 6.7%, respectively for the quarter ended September 30, 2012 compared to the quarter ended September 30, 2011. Consolidated net sales and consolidated net earnings for the quarter ended September 30, 2012 were unfavorably affected by changes in exchange rates from the same prior-year period. A stronger U.S. dollar as compared to foreign currencies reduced sales by \$1.9 million in the quarter ended September 30, 2012 from the comparable prior-year period.

Net sales

Consolidated net sales for the quarter ended September 30, 2012 were \$75.0 million, a decrease of \$2.6 million (3.3%) from the quarter ended September 30, 2011. Excluding the effect of the change from the comparable prior-year period in exchange rates used to convert sales in foreign currencies (primarily British pound sterling, euros and Chinese yuan), consolidated net sales for the quarter ended September 30, 2012 decreased 0.9% from the quarter ended September 30, 2011. Included in consolidated net sales for the quarter ended September 30, 2012 was \$288,000 of sales of new biotechnology products that had their first sale in fiscal 2013.

Net sales by reportable segment were as follows (in thousands):

	<i>Quarter Ended</i>	
	<i>September 30,</i>	
	<i>2012</i>	<i>2011</i>
Biotechnology	\$69,503	\$72,303
Hematology	5,522	5,293
Consolidated net sales	\$75,025	\$77,596

Biotechnology segment net sales decreased \$2.8 million (3.9%) for the quarter ended September 30, 2012 compared to the same prior-year period. This decrease resulted primarily from changes in exchange rates from the comparable prior-year period which impacted sales by \$1.9 million, as noted above. The quarter ended September 30, 2012 also had one less selling day as compared to the same prior-year period.

[Table of Contents](#)

Biotechnology segment sales growth (decline), excluding the effect of changes in exchange rates, from the same prior-year periods were as follows:

	<i>Quarter Ended September 30,</i>	
	<i>2012</i>	<i>2011</i>
U.S. industrial, pharmaceutical and biotechnology	(5.0%)	9.3%
U.S. academic	(4.0%)	(2.5%)
Europe	3.1%	(0.7%)
China	25.1%	14.1%
Pacific rim distributors, excluding China	Unchanged	Unchanged

Biotechnology segment net sales consisted of the following:

	<i>Quarter Ended September 30, 2012</i>
	United States:
Industrial, pharmaceutical and biotechnology	30%
Academic	14%
Other	13%
	<u>57%</u>
Europe	27%
China	4%
Pacific rim distributors, excluding China	9%
Rest of world	3%
	<u>100%</u>

Hematology segment net sales increased \$229,000 (4.3%) for the quarter ended September 30, 2012 compared to the same prior-year period as a result of increased sales volume.

Gross margins

Segment gross margins, as a percentage of net sales, were as follows:

	<i>Quarter Ended September 30,</i>	
	<i>2012</i>	<i>2011</i>
Biotechnology	76.1%	77.2%
Hematology	48.5%	48.2%
Consolidated	74.1%	75.2%

Biotechnology segment gross margin percentages for the quarter ended September 30, 2012 decreased from the same prior-year period primarily due to lower sales caused by unfavorable exchange rates. This negative gross margin impact was partially offset by a decline in the costs recognized upon the sale of inventory acquired in fiscal 2011 which was written-up to fair value. Hematology segment gross margin percentage for the quarter ended September 30, 2012 increased slightly from the comparable prior-year period as a result of changes in product mix.

Selling, general and administrative expenses

Selling, general and administrative expenses for the quarter ended September 30, 2012 decreased \$445,000 (4.1%) from the same prior-year period. Consolidated selling, general and administrative expenses were composed of the following (in thousands):

	<i>Quarter Ended</i> <i>September 30,</i>	
	<u>2012</u>	<u>2011</u>

Biotechnology	\$7,259	\$6,469
Hematology	193	198
Consolidated research and development expenses	<u>\$7,452</u>	<u>\$6,667</u>

Research and development expenses for the quarter ended September 30, 2012 increased \$785,000 (11.8%) from the same prior-year period. The increase was mainly due to increases in personnel and supply costs associated with the ongoing development and release of new high-quality biotechnology products.

Other non-operating expense, net

Other non-operating expense, net, consists mainly of foreign currency transaction gains and losses, rental income, building expenses related to rental property, and the Company's share of losses by equity method investees. Amounts were as follows (in thousands):

	<i>Quarter Ended</i> <i>September 30,</i>

Cash flows from operating activities

The Company generated cash of \$29.3 million from operating activities in the first quarter of fiscal 2013 compared to \$34.4 million in the first quarter of fiscal 2012. The decrease from the prior year was primarily due to decreased net earnings for the quarter and changes in receivable and accounts payable and income taxes payable as a result of the timing of receipts and payments.

Cash flows from investing activities

During the quarter ended September 30, 2012, the Company purchased \$21.1 million and had sales or maturities of \$17.8 million of available-for-sale investments. During the quarter ended September 30, 2011, the Company purchased \$44.3 million and had sales or maturities of \$35.0 million of available-for-sale investments. The Company's investment policy is to place excess cash in municipal and corporate bonds and other investments with maturities of less than three years. The objective of this policy is to obtain the highest possible return while minimizing risk and keeping the funds accessible.

Capital expenditures for fixed assets for the first quarter of fiscal 2013 and 2012 were \$2.5 million and \$1.1 million, respectively. Included in capital expenditures for the first quarters of fiscal 2013 and 2012 was \$2.0 million and \$663,000, respectively, related to expansion and remodeling of office and laboratory space at the Company's Minneapolis facility. The remaining capital additions were mainly for laboratory and computer equipment. Capital expenditures in the remainder of fiscal 2013 are expected to be approximately \$26.2 million including \$20 million related to expansion space in Minneapolis and the purchase of land and construction of a new facility in the United Kingdom, both of which are not expected to be completed until fiscal 2014. Capital expenditures are expected to be financed through currently available funds and cash generated from operating activities.

CRITICAL ACCOUNTING POLICIES

The Company's significant accounting policies are discussed in the Company's Annual Report on Form 10-K for fiscal 2012 and are incorporated herein by reference. The application of certain of these policies requires judgments and estimates that can affect the results of operations and financial position of the Company. Judgments and estimates are used for, but not limited to, valuation of available-for-sale investments, inventory valuation and allowances, valuation of intangible assets and goodwill and valuation of investments in unconsolidated entities. There have been no significant changes in estimates in fiscal 2013 that would require disclosure. There have been no changes to the Company's policies in fiscal 2013.

FORWARD LOOKING INFORMATION AND CAUTIONARY STATEMENTS

This quarterly report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include those regarding the Company's expectations as to the effect of changes to accounting policies, the amount of capital expenditures for the remainder of the fiscal year, the timeframe for completing facility improvements in the U.S. and the U.K., the source of funding for capital expenditure requirements, the sufficiency of currently available funds for meeting the Company's needs, and the impact of fluctuations in foreign currency exchange rates. These statements involve risks and uncertainties that may affect the actual results of operations. The following important factors, among others, have affected and, in the future, could affect the Company's actual results: the introduction and acceptance of new products, general economic conditions, increased competition, the reliance on internal manufacturing and related operations, the impact of currency exchange rate fluctuations, economic instability in Eurozone countries, the recruitment and retention of qualified personnel, the impact of governmental regulation, maintenance of intellectual property rights, credit risk and fluctuation in the market value of the Company's investment portfolio, unseen delays and expenses related to facility improvements and the success of financing efforts by companies in which the Company has invested. For additional information concerning such factors, see the Company's Annual Report on Form 10-K for fiscal 2012 as filed with the Securities and Exchange Commission.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At September 30, 2012, the Company had a portfolio of fixed income debt securities, excluding those classified as cash and cash equivalents, of \$201 million. These securities, like all fixed income instruments, are subject to interest rate risk and will decline in value if market interest rates increase. As the Company's fixed income securities are classified as available-for-sale, no gains or losses are recognized by the Company in its consolidated statements of earnings due to changes in interest rates unless such securities are sold prior to maturity. The Company generally holds its fixed income securities until maturity and, historically, has not recorded any material gains or losses on any sale prior to maturity.

At September 30, 2012, the Company held an investment in the common stock of CCXI. The investment was included in short-term available-for-sale investments at its fair value of \$73.5 million. At September 30, 2012, the potential loss in fair value due to a 10% decrease in the market value of CCXI was \$7.4 million.

Table of Contents

The Company operates internationally, and thus is subject to potentially adverse movements in foreign currency exchange rates. For the quarter ended September 30, 2012, approximately 29% of consolidated net sales were made in foreign currencies, including 13% in euros, 7% in British pound sterling, 4% in Chinese yuan and the remaining 5% in other European currencies. As a result, the Company is exposed to market risk mainly from foreign exchange rate fluctuations of the euro, British pound sterling and the Chinese yuan as compared to the U.S. dollar as the financial position and operating results of the Company's foreign operations are translated into U.S. dollars for consolidation.

Month-end average exchange rates between the British pound sterling, euro and Chinese yuan and the U.S. dollar, which have not been weighted for actual sales volume in the applicable months in the periods, were as follows:

	<i>Quarter Ended September 30,</i>	
	<i>2012</i>	<i>2011</i>
Euro	\$1.26	\$1.41
British pound sterling	1.59	1.61
Chinese yuan	.158	.156

The Company's exposure to foreign exchange rate fluctuations also arises from trade receivables and intercompany payables denominated in one currency in the financial statements, but receivable or payable in another currency. At September 30, 2012, the Company had the following trade receivable and intercompany payables denominated in one currency but receivable or payable in another currency (in thousands):

	<i>Denominated Currency</i>	<i>U.S. Dollar Equivalent</i>
Accounts receivable in:		
Euros	£ 932	\$ 1,506
Other European currencies	£ 919	\$ 1,485
Intercompany payable in:		
Euros	£ 290	\$ 469
U.S. dollars	£ 2,422	\$ 3,915
U.S. dollars	yuan 4,448	\$ 708

All of the above balances are revolving in nature and are not deemed to be long-term balances. The Company does not enter into foreign exchange forward contracts to reduce its exposure to foreign currency rate changes on forecasted intercompany foreign currency denominated balance sheet positions. Foreign currency transaction gains and losses are included in "Other non-operating expense" in the Consolidated Statement of Earnings and Comprehensive Income. The effect of translating net assets of foreign subsidiaries into U.S. dollars are recorded on the Consolidated Balance Sheet as part of "Accumulated other comprehensive income."

The effects of a hypothetical simultaneous 10% appreciation in the U.S. dollar from September 30, 2012 levels against the euro, British pound sterling and Chinese yuan are as follows (in thousands):

Decrease in translation of 2013 earnings into U.S. dollars (annualized)	\$ 2,143
Decrease in translation of net assets of foreign subsidiaries	15,667
Additional transaction losses	462

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as amended (the Exchange Act)). Based on this evaluation, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective to ensure that material information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There was no change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
